

## Covid 19 Home/School Agreement

This home-school agreement has been issued for parents/carers to sign establishing our expectations of your child in school and our expectations of families where a member of a family displays symptoms - it is essential that all families comply with this to protect our community.

- Contact with individuals who are unwell should be minimised by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- Staff members, Parents and Carers must [book a test](#) for themselves or their children if they are displaying symptoms.
- Parents and Staff are asked to inform the school immediately of the results of a test.
- Staff members, Parents and Carers need to be ready and willing to provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test & Trace.
- If someone tests positive, they should follow the [‘stay at home: guidance for households with possible or confirmed coronavirus \(COVID-19\) infection’](#) and must continue to self-isolate for at least 7 days from the onset of their symptoms and then return to school only if they do not have symptoms. The 7-day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other members of their household should continue self-isolating for the full 14 days.
- If someone tests negative, if they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. They could still have another virus, such as a cold or flu – in which case it is still best to avoid contact with other people until they are better. Other members of their household can stop self-isolating.
- School will keep a record of pupils and staff in each group, and any close contact that takes places between children and staff in different groups.
- School will send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious.
